**In the specification:**

Please Amend the first paragraph of page 1 entitled "Cross Reference to Related Application" as follows:

This application is a continuation of U.S. Patent Application No. 10/012,265 filed November 5, 2001, now U.S. Patent No. 6,669,811 issued December 30, 2003, which is a

continuation of U.S. Patent Application No. 09/474,843 filed December 30, 1999, now U.S.  
Patent No. 6,350,317 issued February 26, 2002 and which is herein incorporated by reference.

***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: it is neither anticipated nor obvious over the prior art of record to have a plasma processing method as claimed by Applicant in claim 1. It is also neither anticipated nor obvious over the prior art of record to have a method of moving a confinement ring or electrode inside a plasma process chamber as claimed by Applicant in claim 25.
4. Welch does not have the gears operatively engaged. Welch teaches a chain drive assembly instead. Modifying Welch would require improper hindsight.
5. Lenz discloses the invention of claims 1-10, but as noted in the declaration field by inventor Eric Lenz, the invention of the Lenz patent and that of claims 1-10 is by the same inventor and thus not by another inventive entity. No other prior art of record discloses moving the confinement ring in a linear direction during processing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
